## WORK EXPERIENCE

### Senior Flutter + Web AI App Developer

Bebuzee ,United Kingdom

01/2021 - 06/2024

United Kingdom(Remote)

<https://www.bebuzee.com>

- Build Rag Pipeline for chatbot and Implemented Vectordatabase for chunking unstructured data
- Implemented building many Rest apis, Langchain agents deployed as both serverless function and Google cloud run
- Integrated AGORA SDK and Socket IO for group video calls and voice calls
- Deployed Backend by dockerizing the apis and creating microservices and deployed on Azure
- Offer letter : <https://l1nk.dev/T9AzA>

### Fullstack AI Developer

Skillops.AI

06/2024 - 12/2024

<https://www.skillops.ai/>

- Built entire frontend using Next JS , Integrated Azure OpenAI, built Rest apis to extract data from various datasources. Built Rag Pipeline for data retrieval from Vector Database and also integrated Mongo DB ,deployed as Azure Functions

### Gen AI Developer (Building AI Voice agents)

Genifea

12/2024 - 6/2025

United Kingdom (remote)

- Build autonomous AI agents(voice , Chat )
- Implemented building many Rest apis, Mongo db and deployed as both serverless function and Google cloud run
- Deployed Fast api via dockerizing the microservices , deployed on Google Cloud platform.
- Worked on Building AI Agents for various task of real estate agency .used tool calling for various ai agent tasks
- Finetuned Prompt Engineering for converting serveral unstructured data to structured data
- Demo : [https://nib-staging.dreamhosters.com/genefiacrm\\_testing/](https://nib-staging.dreamhosters.com/genefiacrm_testing/)

### Fullstack AI Developer

Puch AI

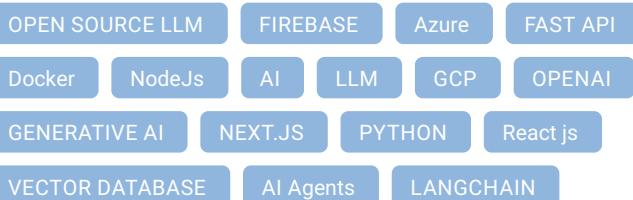

06/2025 - 6/2025

<https://puch.ai/>

Remote

- Integrated Whatsapp Business API
- Built AI agents for Whatsapp Bot
- integrated Gemini,Open AI apis,,Deployed FastAPis as AWS Lambda functions

## SKILLS

## PERSONAL PROJECTS

AI agent for Pull Request review

- An ai agent on your github automating PR review for every pull request and suggesting fixes ,helps developers to ship code faster [Watch demo](#)

On Device LLM for managing you Gmail

- [Watch Demo](#)

AI Text-to-Infographic Video /Shorts Generator

- An AI powered tool which converts analytical data into video .
- [Video demo](#)

AI agent for quality monitoring and customer Insights extraction

- its an web app which automates call quality analysis using Automatic Speech Recognition model and extracts granular level customer insights from call recording using LLM models & langchain
- [Watch Demo](#)

AI Rag Agent for social media (video/image/meme) content creation based on recent trends

- [Watch Demo](#)
- Build Agent like perplexity to search for recent trends and based on user input it generates a full social media post finetuned for each social media platform.Used Langchain,Vectordatabase ,Flux image genertaion model, and Shotstack APIs

AI Rag Agent App ,Finetuned on your own health data

- [Watch Demo](#)
- [Code](#)

AI Virtual Tryon App

- Using this app you can virtual tryon any clothes using AI.Used VTON model ,hosted it on GPU cloud and built fast APIs to generate image of dress
- <https://play.google.com/store/apps/details?id=com.ai.dripapp>

AI powered Rag to understand Large Codebase

- [Video demo](#)
- Used Chatgpt and other LLM models ,used Vector database and Langchain ,
- 100+ developers using this tool in their daily life

## CERTIFICATES

Ellenox venture AI hackathon Special Mention (Call Analysis ai tool)  
(03/2024 - 6/2025)  
[Video Appreciation](#)

Ellenox venture AI hackathon certificate  
[Certificate of special mention](#)
